Spring Tulip

6 1/2" unfinished

Cut one square muslin 7". (This will be squared up to 6 1/2" after appliqué is finished)

Appliqué shapes using your favorite method. Use green for the stem and leaves and your favorite Spring Color for the flower. This is a primitive tulip—so don't let the points and valleys worry you. Have fun!

Don't forget to square to 6 1/2" when you are finished.
